RiaFox

January 2023 - March 2023

- Collaborated with a cross-functional team to complete tasks in the MEAN stack (MongoDB, Express.js, AngularJS, and Node.js) for web application.
- development. Conducted user experience testing and provided valuable insights
- Effectively communicated with team members remotely using Slack and ClickUp, ensuring transparency and progress updates on project milestones.
- Demonstrated strong problem-solving skills and the ability to adapt to evolving project requirements.

Full-Stack Software Development

Boise CodeWorks

Aug 2022 - December 2022

- Developed proficiency in several programming languages, including but not limited to HTML, CSS, JS, C#, and more, enabling me to work on diverse projects and adapt to various tech stacks.
- Acquired knowledge of relational and NoSQL databases, such as MySQL and MongoDB, and learned to design and manage database systems.
- Competent in building and integrating RESTful APIs as well as creating user-friendly interfaces with focus on design and accessibility awareness.

APPLICATIONS

SamadhiYogaldaho

Designed, developed, and deployed a customized Vue.js website for a small yoga business, working closely with the client to capture her vision, deliver high-quality content, and provide regular updates throughout the development process.

BetterAfterBooks

Collaborated with a team to design and build a full stack book search and review app inspired by popular sites like GoodReads.com and BookBub.com. As an architect and developer, led the development of the app using Vue.js, Bootstrap, C#, .Net, SQL, and Auth0, and gained valuable experience with modern social media UI/UX design.

NextFire Blog

Created a Social Blogging Platform with React, Firebase, and Next.js, featuring custom usernames, SEO-friendly content, real-time interactions, and secure deployment. A Course that is taught by Jeff Delaney on his website fireship.io

Developer Portfolio

Developed a personalized developer portfolio from scratch using Vue.js, showcasing a strong commitment to front-end web development. This dynamic and interactive platform highlights my skills, projects, and achievements while demonstrating expertise in Vue.js and front-end technologies.
